

WEEKLY CHAMPION.

SATURDAY, APRIL 10, 1886.

STOCK NOTES.

During the year 1885 three firms in Chicago slaughtered 915,571 head of cattle.

Arizona cattlemen say there has been absolutely no loss this season from inclement weather.

Ocean freight rates on live cattle are quoted at from \$8.50 to \$9.00 per head with small insurance.

The annual meeting of the Northern New Mexico Stock Association was held at Springer, N. M., on April 5th.

It is stated that nearly six million head of cattle have passed over the Texas cattle drive in the last twenty years.

The regular semi-annual meeting of the General Stock Growers' Association of southern Arizona met at Benson last Monday.

L. J. Rose, of Los Angeles, has sold his stallion, "Sultan," who has a record of 224, for \$10,000 to two New Mexican stockmen.

Upward of 1,000 horses are being trained at Newmarket, England, for next year's work on the turf. They are in the hands of about thirty professional trainers.

In 1885 nearly \$1,000,000 was given away in purses and stake money to the different jockey clubs in this country; and this year it will doubtless amount to a good deal more.

California wool-growers will hold a meeting during June to decide upon a day when poison shall be put out for killing coyotes which have become very destructive to flocks.

A Colton citizen tied one end of a rope around his wrist the other day, while he lassoed a Texas steer with the other. He thought he had the animal, but at the end of the first 100 yard heat he found that the steer had him.

Miller and Lux are making preparations to shear 150,000 head of sheep at Firebaugh's, California, this spring. This will require a large force of "clippers," and will consequently make things lively at that place.

American cattle are firm and strong in Liverpool at 13½ and 14 cents, estimated dressed weight. American refrigerator beef is selling there for 9½ and 10 cents, which show a discrimination in England in favor of our cattle.

That terrible disease, glanders, is said to be prevailing to an alarming extent among the horses in some of the counties of California. In the past few days 50 horses have been killed in Tehama county, and a number elsewhere.

A Miles City man has invented a new stirrup which will not allow the foot to be caught when one is dismounting. What the amateur cowboy is yearning for is the invention by some one of a saddle which will enable him to approach the untamed broncho of the plains without first saying his prayers.—St. Paul Globe.

A labor-saving Yankee of Chapinville, Conn., has rigged a crank attachment to a wheel of his wagon connecting it with a churn that he places in the wagon; and when the cream is all ready he drops it into the churn, hitches up his horse and takes a ride, returning home in due time with a nice mess of butter that has indeed "come" very easily.

Among the Arizonastockmen there are some quite appropriate names. For instance, Mr. Ballwinkle owns large herds, Mr. Coward possesses stock interests, and Mr. Helferman is identified with the industry. They are addicted to shorthorns when among thoroughbreds, and chew the best old money can buy.—Tucson Citizen. Socorro county has a Head, a Horn, an Oxbridge and a Grazer.—Bullion.

The company in which Charles W. Beach is interested, Messrs. Comstock & Co., have purchased from Mary L. Miller two ranches and 100 mares in Kirkland Valley, the purchase price being \$22,000. This purchase gives the company a range of about 18 miles in length. They have also purchased 160 acres of land on which Telegraph spring is located, from Joseph Elte. This property is located about three miles south of Copper Basin.—Journal-Miner.

The thieves who recently made the raid on the San Pedro, were overhauled by a party of ranchmen last Saturday somewhere in the vicinity of Lordsburg, and, offering resistance to being captured, a fight ensued, resulting in the killing of three of the thieves. There were four in the gang, all Mexicans, one escaping. A num-

ber of the stolen horses were recovered, but several are yet missing. The thieves killed two or three of the animals, which had given out.

A sick farmer had an obstinate cow which he wished to get to market. On consulting his neighbors he received the following advice: The carpenter said he'd have a screw driver; the furniture man said let a bureau drawer; a small boy offered to holler; the newspaper man said let an editorial leader; the postmaster suggested having a letter carrier; the village toper wanted to do his part and offered to take a horn; the pickle vendor thought the little gherkin would start 'em. Meantime the farmer expired of exhaustion, and the cow died of grief. This fable teaches that the possibilities of the English language are great.—Ex.

This powder never varies. A marvel of purity, strength and whiteness. More economical than the ordinary kinds, and can be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. Royal Baking Powder Co., Los Wall Street, N. Y.

1886 THE COURIER-JOURNAL
AN ORGAN OF
LIVING IDEAS AND LIVE ISSUES.
AN EASY UP
Monopolies, Oligarchism, and the
Spirit of Sectional Strife.

The Courier-Journal (of Cyrus W. Field, in-Chief), is the acknowledged Representative Newspaper of the South, is Democratic in politics, and first rate, and all the time is for a resolution to build up a newspaper in every state by the tariff now in force.

The Weekly Courier-Journal

is the best weekly newspaper published in the United States, and for the quality and quantity of matter that appears in each issue, it is the equal of any. Its telegraphic news facilities are second to none, and it is the organ of the oldest writers and correspondents in the country. It presents the news of the week from every quarter of the globe, and throughout the year a greater number of Serials and Short Stories by prominent and popular writers than any other paper. Higher prices have to be paid for the Courier-Journal, but it is a great opportunity lost. Those who can take it are not willing to go without it in their homes.

Miller and Lux are making preparations to shear 150,000 head of sheep at Firebaugh's, California, this spring. This will require a large force of "clippers," and will consequently make things lively at that place.

American cattle are firm and strong in Liverpool at 13½ and 14 cents, estimated dressed weight. American refrigerator beef is selling there for 9½ and 10 cents, which show a discrimination in England in favor of our cattle.

The Weekly Courier-Journal has by far the largest circulation of any Democratic Newspaper in America.

It is acknowledged by press and people throughout the United States to be a great newspaper, and in every way equal in quality to any in the correctness of information, its great variety of news in every sense, and the interest and interest of its editorials.

The Weekly Courier-Journal is the organ of the most prominent and popular writers that any paper has ever had.

It is a great newspaper, and a great opportunity lost. Those who can take it are not willing to go without it in their homes.

FREE PREMIUMS.

A free premium is given to each subscriber of great variety and value to yearly subscribers. Our receipt of a request for them, we send free a copy of our paper, and all the time is for a resolution to build up a newspaper in every state by the tariff now in force.

SUBSCRIPTION TERMS.

Weekly, one year, including a free premium, \$1.50. Weekly, includes of living expenses without premium, each..... 1.16

For every club of five names sent us at one time, we send free a copy of our paper, and all the time is for a resolution to build up a newspaper in every state by the tariff now in force.

Daily, except Sunday, one year..... \$1.00

Daily, except Sunday, two months..... 1.00

Sunday, six months..... 2.00
